

Policy on Internal Shortage

Generally we do not allow the client to do shortage but in case of internal shortage ,we purchase the client short stock next day. We tell the client to purchase the stock next day but if he/she not able to purchase the stock then we will purchase at head office and intimate the client about the shortage recovery. If we do not able to purchase the said shortages from the Exchange platform then in such situation we give financial debit/ credit to respective client.
